

MILITARY AND OVERSEAS GUIDE

Regardless of where you are in the world, you have the right to cast a ballot in every election, and more importantly, have it arrive in time to count. However, your current location and mail delivery time could cause a delay. To make sure your vote counts, please review the following information.

Federal write-in absentee ballots may be used by active military and overseas civilian voters residing outside the United States if their regular absentee ballot has not been received in a timely manner.

These ballots can be obtained from your Installation Voting Officer or from any US Embassy or Consular Office or you may request the write-in ballot directly from the Federal Voting Assistance Program. Learn more by visiting <http://www.fvap.gov>
